

GIFT

This is what you've saved me from
From living to earn money that will only fade and fade and fade away
This is what you've saved me from
A life where I am searching for that thing to fill this hole I'm feeling

This is what you've saved me from
From fearing that I'll lose control of life and it will come crashing down all around

You've given life to me
You've given life to me
You've given life to me

This is what you've saved me from
From carrying life's worries and the burdens that would crush me
And This is what you've saved me from
From feeling scared of life and feeling scared of death and all that's in between

You've given life to me
You've given life to me
You've given life to me again

What a gift you've given me oh what a gift
What a gift you've given me oh what a gift

What a gift you've given me oh what a gift
What a gift you've given me oh what a gift

This is what you've saved me from

MY HEART CRIES OUT

My heart cries out to you
My heart cries out to you
I'm longing, longing to draw close
Longing to draw close again
My spirit knows the truth
My spirit knows the truth
I'm crying, crying out to you
Crying out to you again

Pour out your spirit today
Pour out your spirit today
Not another moment
Not another second
This far away again

There's so much I don't know
There's so much I don't know
But I know that this God I'm singing to
Changes every single thing
I'm letting my heart lead
I'm following my heart
No more, no more holding back
I'm running back to you again

Pour out your spirit today
Pour out your spirit today
Not another moment
Not another second
Not another moment
Not another second
This far away again

Pour out your spirit today
Pour out your spirit today
Not another moment
Not another second
This far away again

GOD KNITS

You know me. You love me
You know me. You love me
You know me. You love me
You know me. You love me

Where can I go?
Where can I hide?
You hem me in behind and before
Where can I go?
Where can I hide?
You hem me in behind and before
Where can I go?
Where can I hide?
You hem me in behind and before

You knitted me together

You know me. You love me
You know me. You love me
You know me. You love me
You know me. You love me

Where can I go?
Where can I hide?
Asleep or awake, you're still with me
Where can I go?
Where can I hide?
Asleep or awake, you're still with me
Where can I go?
Where can I hide?
Asleep or awake you're still with me

You knitted me together

EDIFY

Lord God we need to hear your voice in all of this
Above every other voice that's whispering
That you're not going to provide for our every need
That you're not the maker of the earth and the sky and the sea

God this is testing us and what we believe is true
If this is it we want to be boiling hot
Not lukewarm and coasting along from day to day
Put a fire in us
Put a fire in us

You're pulling us closer
You're pulling us closer
We're throwing ourselves onto you
Coz you bring life into our weary bones

Glory, it's all about your glory
It's not about me
I'm trusting you
Trusting you

So now, we're choosing to believe in what we know is true
Your strength and your provision is all we need to get through
We're lifting up a shout of perseverance
You're our God
Yes you're our God

You're pulling us closer
You're pulling us closer
We're throwing ourselves onto you
Coz you bring life into our weary bones

Glory, it's all about your glory
It's not about me
I'm trusting you
Trusting you

Pulling us closer you're pulling us closer, yeah

THE LOUDEST SHOUT

I've been in the other room for a while listening, listening... intently to the
The voices of faith and love from your people
Listening, listening
I didn't want to go with the flow
I was waiting, waiting
Too cautious to jump right in
Waiting waiting waiting waiting

I'm starting to crawl forward now creeping closer to your truth, to your truth
And that's it
Like a magnet I'm being drawn
Being pulled closer
Closer now, closer now
I'm being made new again
I'm being set free again
You're drawing me closer now
Closer and closer and closer

Will you say it any louder God?
Will you whisper clearer now, clearer now?
That is what I said and...
And then I realised that you said it loud, loud and clear
On the cross, on the cross
It was the loudest shout of 'I love you' that there's ever been
It was the loudest shout of 'I love you' that there'll ever be!
I love you I love you I love you
I love you I love you I love you
I love you I love you I love you
I LOVE YOU

It's not just my feelings
It's the God of history
He's pouring out to me again and again and again
What a wonder what a mystery
The God of history is pouring out to me
Again and again and again
Again and again and again
Again and again and again

Pouring out to me again and again and again and again ...

THE EARTH IS YOURS

The earth is yours
The earth is yours
The earth is yours
And everything in it

The earth is yours
The earth is yours
The earth is yours
And everything in it

The earth is yours
The earth is yours
The earth is yours
And everything in it

The earth is yours
The earth is yours
The earth is yours
And everything in it

THE SEARCHING

You're a mystery – far too much to take in
I'm searching, I'm searching for you
So come and break in
Capture my heart again
And make it yours, completely

Fill my heart again
Fill my heart again
Fill my heart and make it new

What would I have become without You?
I'm longing to know the truth – show me!

This world is yet to show me anything worth following
Only you give true hope, you bring freedom
So come and break in
Capture my heart again
And make it yours, completely

Fill my heart again
Fill my heart again
Fill my heart and make it new

What would I have become without You?
I'm longing to know the truth
I'm longing to know the truth
I'm longing to know the truth – show me

Show me

TRUST YOU NOW

Spinning round and round
I'm holding on so tight
Holding on
Round and round I go
It's pulling me apart here

But I trust you now
For our every need
Our every need
And I need you now more than ever

There must be a way
A way we'll come out stronger
I'm holding onto you
On every truth we know here

And I trust you now
For you promised us
That you'd provide
For our every need
Our every need
And I need you now more than ever
Yes I need you now more than ever

Yeah
I trust you now

I trust you now
For you promised us
That you'd provide
For our every need
Our every need
And I need you now more than ever
Yes I need you now more than ever

I trust you now

BEGINNING & THE END

I've seen what life is like – empty promises
The world gives empty boxes
Nothing inside
But I've turned away from that place now
I'm looking to you
Only to you

Beginning and the end
My life is in your hands

My life hinges on You God
It's hopeless without you
Without you
For you made the world - all of creation
You're the King
You are the King

Beginning and the end
My life is in your hands
Beginning and the end
My life is in your hands

Running back to You
I'm running back to You
Running back to You
I'm running

Beginning and the end
My life is in your hands

GOLD IN THE FIRE

You've brought the edge this time
We've got nothing left
You've brought the edge this time
But we're holding on
Yeah we're holding on

So for a little while we suffer
We are being purified like gold in the fire
Like gold in the fire

But great is he in whom we trust
Great is he
He turns us around
Turns us around

Oh what a God we have
We've got a brand new life
There's everything to live for now
We're gonna stand up and fight
We're gonna stand up and fight

But great is he in whom we trust
Great is he
He turns us around
Turns us around
But great is he in whom we trust
Great is he
He turns us around
Turns us around
He turns us around
Turns us around

Stand firm stand firm
Stand firm stand firm
Stand firm stand firm
Stand firm stand firm

Stand firm stand firm
And do everything in love
Stand firm stand firm
And do everything in love

Stand firm stand firm
Stand firm stand firm
